As a detective lieutenant with the LAPD, Peter Decker witnessed enough ugliness and chaos for a lifetime. Now he and his spirited wife, Rina Lazarus, are ready to enjoy the quiet beauty of upstate New York, where they can be closer to their four adult children, grandchildren, and their foster son, Gabe. But working for the Greenbury Police Department isn't as fulfilling as Decker hoped. While Rina has adapted beautifully to their new surroundings, Decker is underwhelmed and frustrated by his new partner, Tyler McAdams, a former Harvard student and young buck with a bad attitude. Just when he thinks he's made a mistake, Decker is called to an actual crime—a possible break-in at the local cemetery. The call seems like a false alarm until it's discovered that a mausoleum's stunning Tiffany panels have been replaced by forgeries. Soon the case escalates into murder: a co-ed at an exclusive consortium of liberal-arts colleges is brutally slaughtered. Poking into the hallowed halls of academia to find a killer, Decker and McAdams are drawn deep into a web of nasty secrets, cold-case crimes, international intrigue, and ruthless people who kill for sport. Decker's job is anything but boring, and the case might be too much to handle for a sleepy town that hasn't seen a murder for nearly a quarter century. But until the coroner's ruling, the scene must be treated as a suspicious crime. Without any personal effects near the body, Decker must dig to uncover his identity, a task made difficult by the department's tight budget and limited personnel. Luckily, Decker gets some unexpected help when his friend and former Greenbury colleague Tyler McAdams calls, looking for a quiet place to study for his law finals. The investigation takes Decker and McAdams to Knead Loft College, where they must penetrate the indecipherable upper echelons of mathematics and mathematical prodigies. Beneath the school's rarified atmosphere they discover a sphere of scheming academics, hidden cyphers—and most dangerous of all—a realm of underworld crime that transforms harmless nerds into cold, calculating evil geniuses.
