Jurist Prudent -- The Judicial Opinions of Lawrence L. Koontz, Jr., Volume 1

Jan 06 2021 Upon his retirement from active service as a Justice of the Supreme Court of Virginia in 2011, Lawrence L. Koontz, Jr. had completed more than four decades of service to citizens of the Commonwealth of Virginia. In order to recognize that service and help preserve Justice Koontz legacy as one of the outstanding jurists in Virginia and the United States, the Salem/Roanoke County Bar Association instituted this project to collect all of Justice Koontz's published opinions, both from his tenure as a Justice of the Supreme Court and as an inaugural member of

the Court of Appeals of Virginia. The first volume to be produced by the Opinions Project includes opinions, concurrences and dissents authored by Justice Koontz during the first five years of his service on the Court of Appeals. During this time, he served as Chief Judge of the Court, having been elected to that position following the sudden and untimely death of E. Ballard Baker, the first Chief Judge of the Court.

Cheap Outboards Dec 17 2021 * Outboard motor repair for the average guy * Fix up an old outboard and SAVE \$1000 or more compared to buying a new motor! With a little know-how and a few common tools, you can fix an old motor—bring it back from the dead.

Sometimes all it takes is a squirt of WD-40 into the cylinder and a new spark plug. Or a new set of points and condensers—which do not require expert knowledge or black magic to install. Maybe the carburetor needs cleaning and adjusting. You can do it! Max E. Wawrzyniak III is an

outboard motor guru. He advises you to find an old motor at a yard sale for \$100 or so (and he tells you exactly which ones to look for), and fix it up—rather than spending \$1500 or more on a new motor. He is a big fan of “cheap power.” Get on the water with money left in your pocket. With a basic understanding of how these motors work, a little logical thinking, and a few hours’ work, you can go boating for a fraction of what everyone else has to pay. Also—for the boater who already owns an outboard motor of any age—this book demystifies these internal-combustion marvels that can bring such frustration if they malfunction. You’ll learn how they work, and the simple things you can do to keep them running forever. What Max teaches are not only money-saving skills, but can also be life-saving, as you will no longer be helpless in the face of engine trouble on the water. His clear instructions and over one hundred color photographs will make anyone into a

capable outboard mechanic.
