This book constitutes the refereed proceedings of the 15th Information Retrieval Technology Conference, AIRS 2019, held in Hong Kong, China, in November 2019. The 14 full papers presented together with 3 short papers were carefully reviewed and selected from 27 submissions. The scope of the conference covers applications, systems, technologies and theory aspects of information retrieval in text, audio, image, video and multimedia data. A rare and timely intervention from Kingsley Chiedu Moghalu, Deputy Governor of the Central Bank of Nigeria, on development in Africa. To many, Africa is the new frontier. As the West lies battered by financial crisis, Africa is seen as offering limitless opportunities for wealth creation in the march of globalization. But what is Africa to today's Africans? Are its economies truly on the rise? And what is its likely future? In this pioneering book, leading international strategist Kingsley Moghalu challenges conventional wisdoms about Africa's quest for growth. Drawing on philosophy, economics and strategy, he ranges from capitalism to technological innovation, finance to foreign investment, and from human capital to world trade to offer a new vision of transformation. Ultimately he demonstrates how Africa's progress in the twenty-first century will require nothing short of the reinvention of the African mindset. 'Africans seriously analyzing Africa's opportunities are all too rare. Kingsley Moghalu writes with insight and authority' Paul Collier 'Savvy . . . distinguished' Mark Malloch-Brown 'Unique in the depth of its insight, the ambition of its scope, and the clarity of its argument. Kingsley Moghalu brings a remarkable intellect and his vast experience to this tour de force on Africa's economic transformation. This is a truly weighty contribution to understanding Africa's developmental dilemma and its quest for a more prosperous future' Ngozi Okonjo-Iweala 'Insightful and analytical . . . sheds instructive light on Africa's position in the world. It is a testament to the palpable optimism that encompasses Africa while frankly addressing the myriad challenges that lie ahead for its economic transformation' Shashi Tharoor Kingsley Chiedu Moghalu is Deputy Governor of the Central Bank of Nigeria. He was the Founder and CEO of Sogato Strategies S.A., a global strategy and risk management consulting firm in Geneva, Switzerland. He has previously worked for the United Nations for 17 years in strategic planning, legal, development finance and executive management. His previous books include Global Justice and Rwanda's Genocide. The present volume contains three of

Perkins's treatises. The first is A Digest or Harmony of the Books of the Old and New Testament , which offers a synopsis of the Bible that relates sacred history to the chronology of the world. Dating God's creation of the universe in 3967 BC, Perkins develops his overview of redemptive history that culminates in the final judgment. The second treatise is The Combat between Christ and the Devil Displayed . Expounding Matthew 4:1-11, Perkins shows how Christ's temptation in the wilderness (1) set Jesus up to serve as the second Adam, overcoming Satan's temptation in a way the first Adam did not; (2) reveals how the devil assaults the church so that we might be better prepared to resist his temptations; and (3) equipped Christ to be a sympathetic high priest to those who are tempted. The third and most significant treatise is A Godly and Learned Exposition upon Christ's Sermon in the Mount . "Hereof I have chosen to entreat," says Perkins, "because it is a most divine and learned sermon, and may not unfitly be called the 'Key to the whole Bible'; for here Christ opens the sum of the Old and New Testaments." The fact that Perkins saw the Sermon on the Mount as unlocking the meaning of Scripture in its entirety suggests that his understanding of what Christ declares in Matthew 5-7 was pivotal to the development of his theology and piety.

Series Description The Works of William Perkins fills a major gap in Reformed and Puritan theology. Though Perkins is best known today for his writings on predestination, he also wrote prolifically on many subjects. His works filled over two thousand large pages of small print in three folio volumes and were reprinted several times in the decades after his death. However, his complete works have not been in print since the mid-seventeenth century. This modern typeset edition of the Works includes four volumes of Perkins's expositions of Scripture, three volumes of his doctrinal and polemical treatises, and three volumes of his practical writings. Forgeries present a daunting problem to art historians, museums, galleries and curators who face challenges in determining the authenticity of paintings. Recent progress in science has led to the development of new methods for investigating works of art, and can provide new insights into the materials found in paintings. The rise in the value of paintings together with the knowledge and skills of forgers highlights the need to develop reliable scientific procedures to identify fakes. Given the complexity of materials in paintings and the convergence of various disciplines, a methodological approach for investigations of paintings is based on art historical, curatorial, aesthetic, technical and scientific evaluation. In this book sophisticated digital and analytical techniques are reviewed for the identification of materials (pigments, binders, varnishes, adhesives) and the physical characteristics of paintings such as brushstrokes, craquelure and canvas weaves. This book presents an updated overview of both non-invasive and micro-invasive techniques that enable the material characterization of paintings. The materials constituting a painting are reviewed, as are ways that changes in materials over time can provide insights into chronology and physical history. State-of-the art digital methods including multi and hyper-spectral imaging and computational approaches to data treatment will be presented. Analytical techniques developed and optimized to characterize binders, varnishes, and pigments are reviewed, focusing on materials which can provide information on ageing or provenance. Case studies of applications of synchrotron-based methods and the analysis of paintings are given, as are chapters devoted to legal aspects related to authenticity. Chapter 1 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

G. A. Henty's historical adventure stories have won the admiration of readers across the world, helping to change the course of children's literature. For the first time in publishing history, Delphi Classics is proud to present the complete works of G. A. Henty, with numerous illustrations, many rare texts, introductions and the usual Delphi bonus material. (Version 2) * Beautifully illustrated with images relating to Henty's life and works * ALL 92 novels, collected together for the first time, each with individual contents tables * Many rare novels, available in no other collection * Images of how the books were first printed, giving your eReader a taste of the original texts * Excellent formatting of the texts * Many of the novels are fully illustrated with their

original artwork * ALL of the shorter fiction, including many rare tales available nowhere else * Special chronological and alphabetical contents tables for the short stories * Easily locate the short stories you want to read * Includes Henty's non-fiction - spend hours exploring the author's entire oeuvre * Features a bonus biography by Henty's friend and fellow author, George Manville Fenn - discover Henty's literary life * Scholarly ordering of texts into chronological order and literary genres Please visit

www.delphiclassics.com to browse through our range of exciting titles Kerux Commentaries enable pastors and teachers to understand and effectively present the main message in a biblical text. Unlike any other commentary series, each volume is written by an expert in biblical exegesis and an experienced homiletician in partnership. Inclusion of a preaching author means that the commentary is focused on biblical insights that are useful in biblical teaching, with communication strategies and illustrations for each passage that are powerful and engaging. Each volume is divided into distinct preaching segments, in which the authors guide the reader through a well-tested sequence: exegetical analysis, theological focus, and teaching strategy. Based on the text-driven Big Idea model, Kerux enhances the reader's ability to deliver a message that is biblical, cohesive, and dynamic. In his 2009 post-synodal apostolic exhortation *Verbum Domini*, Pope Benedict XVI pointed out that "theological reflection has always considered inspiration and truth as two key concepts for an ecclesial hermeneutic of the

sacred Scriptures” and that there is today the need “for a fuller and more adequate study of these realities, in order to better respond to the need of interpreting the sacred texts in accordance with their nature.” The Inspiration and Truth of Sacred Scripture: The Word That Comes from God and Speaks of God for the Salvation of the World is the contribution of the Pontifical Biblical Commission toward a more adequate understanding of the concepts of inspiration and truth that respects both the nature of the Bible and its significance for the life of the Church. Drawing on a close reading of the Scriptures themselves, the document focuses on three main aspects:1. The inspiration of Sacred Scripture and the exploration of its divine provenance2. The truth of the Word of God, emphasizing the message about God and his project of salvation3. Challenges that arise from the Bible itself, on account of certain aspects that seem inconsistent with its quality of being the Word of God Reading this document, formally approved by Pope Francis, will strengthen the reader to receive the word of God—in the liturgical assembly and in every other place—in its theological, Christological, soteriological, and ecclesiological context in a way that corresponds ever more closely to this unique gift of God whereby God communicates his very self and invites us into communion with him. This is an African retelling of Euripides: an unnervingly topical story of a people and a beloved city destroyed by the brutality of war. The play was first performed in Lagos in 2003 under the distinguished director Chuck Mike, and subsequently toured the UK. The ADDIE process is past its prime. It was developed long before Agile and other iterative processes that have introduced greater efficiencies in design and development, fostered more creativity, and addressed effective stakeholder involvement. Leaving ADDIE for SAM introduces two new concepts—SAM, the Successive Approximation Model, and the Savvy Start. Together, they incorporate contemporary design and development processes that simplify instructional design and development, yielding more energetic and effective learning experiences.

This book is a must-read for all learning professionals who have a desire to let go of outdated methodologies and start creating better, faster training products today. The limits of fifteen-year-old Kambili’s world are defined by the high walls of her family estate and the dictates of her fanatically religious father. Her life is regulated by schedules: prayer, sleep, study, prayer. This book discusses the state of the art of automated essay scoring, its challenges and its potential. One of the earliest applications of artificial intelligence to language data (along with machine translation and speech recognition), automated essay scoring has evolved to become both a revenue-generating industry and a vast field of research, with many subfields and connections to other NLP tasks. In this book, we review the developments in this field against the backdrop of Elias Page’s seminal 1966 paper titled “The Imminence of Grading Essays by Computer.” Part 1 establishes what automated essay scoring is about, why it exists, where the technology stands, and what are some of the main issues. In Part 2, the book presents guided exercises to illustrate how one would go about building and evaluating a simple automated scoring system, while Part 3 offers readers a survey of the literature on different types of scoring models, the aspects of essay quality studied in prior research, and the implementation and evaluation of a scoring engine. Part 4 offers a broader view of the field inclusive of some neighboring areas, and Part \ref{part5} closes with summary and discussion. This book grew out of a week-long course on automated evaluation of language production at the North American Summer School for Logic, Language, and Information (NASSLLI), attended by advanced undergraduates and early-stage graduate students from a variety of disciplines. Teachers of natural language processing, in particular, will find that the book offers a useful foundation for a supplemental module on automated scoring. Professionals and students in linguistics, applied linguistics, educational technology, and other related disciplines will also find the material here useful. A handbook of key questions and answers to daily readings in the One Year Bible. Transform your high school accounting course with CENTURY 21 ACCOUNTING MULTICOLUMN JOURNAL 10E,

the leader in high school accounting education for more than 100 years. Input from educators, accounting professionals, content experts, and high school accounting students has informed the tenth edition's new critical thinking activities, real-world applications, updated Accounting instruction, and enhanced online learning solutions, including Online Working Papers and Automated Accounting Online computerized accounting software. CENTURY 21 ACCOUNTING 10E maintains its renowned instructional design and step-by-step approach to teaching the mechanics of accounting. Greater emphasis on conceptual understanding and financial statement analysis in the tenth edition encourages students to apply accounting concepts to real-world situations and make informed business decisions. New features like Forensic Accounting, Think Like an Accountant, Financial Literacy, and Why Accounting? are a few examples of the expanded opportunities for students to master valued skills, such as critical thinking and technology use, as defined by the Partnership for 21st Century Skills. In addition, commercial technology, integrated throughout the text, equips students to work with Microsoft Excel, Peachtree, QuickBooks, and Automated Accounting Online, with step-by-step instructions and the flexibility to use multiple versions of software. Trust the dedicated leader in accounting education to transform your accounting course with a time-tested instructional design, enhanced digital solutions, and a comprehensive package to address your contemporary classroom needs and prepare your students for success in the 21st century. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Fifteen years ago, Mama said, starting her story, I came to Lagos from Ghana. I came to Nigeria because I was considered an alien in that country. The government of Ghana passed a law asking all aliens without resident permits to regularise their stay in the country'. This story of migration, identities and lives undermined by cynical and xenophobic politics pushed to its logical and terrible conclusion pertains to the Ghanaian orders of 'alien compliance' issued in 1970-1971, which determined to force all non-ethnic Ghanaians, so called illegal immigrants, to return to their - so stipulated - 'home'. The novel thus touches on concerns of deeper relevance to the politics of race and migration of the twenty first century. Transform your high school accounting course with CENTURY 21 ACCOUNTING MULTICOLUMN JOURNAL 10E, the leader in high school accounting education for more than 100 years. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This book proposes a methodological framework for an ethical reading of Old Testament narrative and demonstrates its benefits and validity by providing an exemplary reading of the story of Josiah in Kings. Part One delineates the

meaning of "ethical reading" practised in the work. The theoretical framework is critically adopted from Martha Nussbaum. This approach to ethics does not extract general rules out of story, rather it allows the reader to appreciate the world of the story itself, which is analogous with real life. Part Two expounds "synchronic literary criticism anchored in discourse analysis" and elucidates its use for ethical reading of Old Testament narrative. Part Three offers exemplary ethical readings and shows how discourse analysis can help the literary issues such as plot delimitation and characterisation. Through the ethical commentary of the story of Josiah, the theme of contingency in life can be noticed to prevail in the story. When contingency in life is accepted as a real part of the human moral life, understanding of ethics should be enlarged so that it may be coped with properly. Here ethics is understood in terms of practical wisdom that can be used for ethical improvisation for ever-changing situations. The particularities in Old Testament narrative are useful features that make the reader perceptive to the complexity of life and thus train practical wisdom; and the literary and discourse-analytical approach makes the most of the genre-characteristics of Old Testament narrative, which realistically reflects the complexity of moral life. Data analytics is proving to be an ally for epidemiologists as they join forces with data scientists to address the scale of crises. Analytics examined from many sources can derive insights and be used to study and fight global outbreaks. Pandemic analytics is a modern way to combat a problem as old as humanity itself: the proliferation of disease. *Machine Learning and Data Analytics for Predicting, Managing, and Monitoring Disease* explores different types of data and discusses how to prepare data for analysis, perform simple statistical analyses, create meaningful data visualizations, predict future trends from data, and more by applying cutting edge technology such as machine learning and data analytics in the wake of the COVID-19 pandemic. Covering a range of topics such as mental health analytics during COVID-19, data analysis and machine learning using Python, and statistical model development and deployment, it is ideal for researchers, academicians, data scientists, technologists, data analysts, diagnosticians, healthcare professionals, computer scientists, and students. *The Answer Key is the teaching tool for The Chronological Bible Workbook. This publication provides a way to check the accuracy of answers for those who want to use The Chronological Bible Workbook in a small group, home school or traditional bible class setting. The charts are all completed and the same links to maps and photos are provided. Additional information has also been included to help stimulate class discussion. The classic account of the abandonment of American POWs in Vietnam by the US government. For many Americans, the recent conflicts in Iraq and Afghanistan bring back painful memories of one issue in particular: American policy on the rescue of and negotiation for American prisoners. One current American POW of the Taliban, Sergeant Bowe Bergdahl, stands as their symbol. Thousands of Vietnam veteran POW activists worry that Bergdahl will suffer the fate of so many of their POW/MIA comrades—abandonment once the US leaves that theater of war. Kiss the Boys Goodbye convincingly shows that a legacy of shame remains from America's ill-fated involvement in Vietnam. Until US government policy on POW/MIAs changes, it remains one of the most crucial issues for any American soldier who fights for home and country, particularly when we are engaged with an enemy that doesn't adhere to the international standards for the treatment of prisoners—or any American hostage—as the graphic video of Daniel Pearl's decapitation on various Jihad websites bears out. In this explosive book, Monika Jensen-Stevenson and William Stevenson provide startling evidence that American troops were left in captivity in Indochina, victims of their government's abuse of secrecy and power. The book not only delves into the world of official obstruction, missing files, censored testimony, and the pressures brought to bear on witnesses ready to tell the truth, but also reveals the trauma on patriotic families torn apart by a policy that, at first, seemed unbelievable to them. First published in 1990, Kiss the Boys Goodbye has become a classic on the subject. This new edition features an afterword, which fills in the news on the latest verifiable scandal produced by the Senate Select Committee on POWs.*

Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. This book constitutes the refereed proceedings of the IFIP TC 5, TC 12, WG 8.4, 8.9, 12.9 International Cross-Domain Conference for Machine Learning and Knowledge Extraction, CD-MAKE 2019, held in Canterbury, UK, in August 2019. The 25 revised full papers presented were carefully reviewed and selected from 45 submissions. The cross-domain integration and appraisal of different fields provides an atmosphere to foster different perspectives and opinions; it will offer a platform for novel ideas and a fresh look on the methodologies to put these ideas into business for the benefit of humanity. What are we to make of those occasional yet illuminating experiences of God's presence that occur outside both church and Scripture? We may encounter God's revelatory presence as we experience a beautiful sunset, the birth of a child, or a work of art, music, or literature. While theologians have tended to describe such experiences abstractly as mere traces or echoes, those involved often recognize such moments of transcendence as transformative. Here senior theologian Robert Johnston explores how Christians should think theologically about God's wider revelatory presence that is mediated outside the church through creation, conscience, and culture. The book offers a robust, constructive biblical theology of general revelation, rooting its insights in the broader Trinitarian work of the Spirit. Drawing in part from the author's theological engagement with film and the arts, the book helps Christians understand personal moments of experiencing God's transcendence and accounts for revelatory experiences of those outside the believing community. It also shows how God's revelatory presence can impact our interaction with nonbelievers and those of other faiths. Transform your high school accounting course with CENTURY 21 ACCOUNTING GENERAL JOURNAL 10E, the leader in high school accounting education for more than 100 years. Input from educators, accounting professionals, content experts, and high school accounting students has informed the tenth edition's new critical-thinking activities, real-world applications, updated Accounting instruction, and enhanced online learning solutions, including Online Working Papers and Automated Accounting Online computerized accounting software. First published in 2004, The Jewish Study Bible is a landmark, one-volume resource tailored especially for the needs of students of the Hebrew Bible. It has won acclaim from readers in all religious traditions. The Jewish Study Bible, which comes in a protective slipcase, combines the entire Hebrew Bible--in the celebrated Jewish Publication Society TANAKH Translation--with explanatory notes, introductory materials, and essays by

leading biblical scholars on virtually every aspect of the text, the world in which it was written, its interpretation, and its role in Jewish life. The quality of scholarship, easy-to-navigate format, and vibrant supplementary features bring the ancient text to life. This second edition includes revised annotations for nearly the entire Bible, as well as forty new and updated essays on many of the issues in Jewish interpretation, Jewish worship in the biblical and post-biblical periods, and the influence of the Hebrew Bible in the ancient world. The Jewish Study Bible, Second Edition, is an essential resource for anyone interested in the Hebrew Bible. Corporate success has been changed by the importance of new developments in Business Analytics (BA) and furthermore by the support of computational intelligence-based techniques. This book opens a new avenues in these subjects, identifies key developments and opportunities. The book will be of interest for students, researchers and professionals to identify innovative ways delivered by Business Analytics based on computational intelligence solutions. They help elicit information, handle knowledge and support decision-making for more informed and reliable decisions even under high uncertainty environments. Computational Intelligence for Business Analytics has collected the latest technological innovations in the field of BA to improve business models related to Group Decision-Making, Forecasting, Risk Management, Knowledge Discovery, Data Breach Detection, Social Well-Being, among other key topics related to this field. Second Generation Cell and Gene-Based Therapies: Biological Advances, Clinical Outcomes, and Strategies for Capitalisation serves as the only volume to the market to bridge basic science, clinical therapy, technology development, and business in the field of cellular therapy/cytotherapy. After more than two decades of painstaking fundamental research, the concept of therapeutic cells (stem cells, genes, etc.), beyond the concept of vaccines, is reaching clinical trial, with mounting confidence in the safety and efficacy of these products. Nonetheless, numerous incremental technical advances remain to be achieved. Thus, this volume highlights the possible R&D paths, which will ultimately facilitate clinical delivery of cutting edge curative products. The next waves of innovation are reviewed in depth for hematopoietic stem cells, mesenchymal stem cells, tissue engineering, CAR-T cells, and cells of the immune system, as well as for enabling technologies such as gene and genome editing. Additionally, deep dives in product fundamentals, history of science, pathobiology of diseases, scientific and technological bases, and financing and technology adoption constraints are taken to unravel what will shape the cytotherapy industry to the horizon 2025 and beyond. The outcome is not simply a scientific book, but a global perspective on the nascent field combining science, business, and strategic fundamentals. Helps readers learn about the most current trends in cell-based therapy, their overall effectiveness from a clinical prospective, and how the industry is moving therapies forward for capitalization "Perspectives" section at the end of each chapter summarizes key learnings, hypotheses, and objectives highlighted and combines scientific and business insights Edited and authored by scientists representing both basic and clinical research and industry, presenting a complete story of the current state and future promise of cellular therapies In der Reihe Beihefte zur Zeitschrift für die alttestamentliche Wissenschaft (BZAW) erscheinen Arbeiten zu sämtlichen Gebieten der alttestamentlichen Wissenschaft. Im Zentrum steht die Hebräische Bibel, ihr Vor- und Nachleben im antiken Judentum sowie ihre vielfache Verzweigung in die benachbarten Kulturen der altorientalischen und hellenistisch-römischen Welt. Die BZAW akzeptiert Manuskriptvorschläge, die einen innovativen und signifikanten Beitrag zu Erforschung des Alten Testaments und seiner Umwelt leisten, sich intensiv mit der bestehenden Forschungsliteratur auseinandersetzen, stringent aufgebaut und flüssig geschrieben sind. While cognitive informatics and natural intelligence are receiving greater attention by researchers, multidisciplinary approaches still struggle with fundamental problems involving psychology and neurobiological processes of the brain. Examining the difficulties of certain approaches using the tools already available is vital for propelling knowledge forward and making further strides. Innovations, Algorithms, and

***Applications in Cognitive Informatics and Natural Intelligence* is a collection of innovative research that examines the enhancement of human cognitive performance using emerging technologies. Featuring research on topics such as parallel computing, neuroscience, and signal processing, this book is ideally designed for engineers, computer scientists, programmers, academicians, researchers, and students. Stalked by a hitman for a heinous crime of which he was acquitted, a church pastor suffers waking nightmares about a dysfunctional divine family, a grim reaper which bears a striking resemblance to Johnny Cash, four riderless horses and a looming apocalypse. Meanwhile, society is in turmoil. Federal laws have disarmed honest citizens while freeing convicted murderers. Runaway taxation has driven the everyday economy underground. Congressional assent to a United Nations treaty facilitates the deadliest terrorist attack since 9/11/01. As the Presidential election nears, an irresistible urge to be truthful seizes the incumbent and her Republican opponent. The incumbent's revelation about systemic voter fraud triggers reforms which result in a landslide victory for the third-party underdog. Ironically, not a single voter remembers selecting the spoiler at the ballot box. Predator and prey finally meet at a funeral, but the ceremony is hijacked by General George Patton. After performing a slapstick resurrection and setting humanity straight on a few things, Patton solves the political mystery by explaining the evolutionary leap which has begun to expand human consciousness. The newly aware congregants proceed to reinvent the United States of America envisioned by its founders. Educationeering describes the author's areas of professional and academic concern for the past 55 years. Educationeering can be defined as directing the triple academic functions of Research, Teaching and Responsive Social Engagement towards the education challenges of society. Prof. Obanya is an international Education Strategist and his original ideas are widely discussed throughout Africa. Publisher's Note: Products purchased from Third Party sellers are not guaranteed by the publisher for quality, authenticity, or access to any online entitlements included with the product. Explore, create, and manage highly interactive data visualizations using Microsoft Power BI Extract meaningful business insights from your disparate enterprise data using the detailed information contained in this practical guide. Written by a recognized BI expert and bestselling author, Data Analysis with Microsoft Power BI teaches you the skills you need to interact with, author, and maintain robust visualizations and custom data models. Hands-on exercises based on real-life business scenarios clearly demonstrate each technique. Publishing your results to the Power BI Service (PowerBI.com) and Power BI Report Server are also fully covered. Inside, you will discover how to:**

- Understand Business Intelligence and self-service analytics
- Explore the tools and features of Microsoft Power BI
- Create and format effective data visualizations
- Incorporate advanced interactivity and custom graphics
- Build and populate accurate data models
- Transform data using the Power BI Query Editor
- Work with measures, calculated columns, and tabular models
- Write powerful DAX language scripts
- Share content on the PowerBI Service (PowerBI.com)
- Store your visualizations on the Power BI Report Server

This book constitutes the proceedings of the 21st EPIA Conference on Artificial Intelligence, EPIA 2022, which took place in Lisbon, Portugal, in August/September 2022. The 64 papers presented in this volume were carefully reviewed and selected from 85 submissions. They were organized in topical sections as follows: AI4IS - Artificial Intelligence for Industry and Societies; AIL - Artificial Intelligence and Law; AIM - Artificial Intelligence in Medicine; AIPES - Artificial Intelligence in Power and Energy Systems; AITS - Artificial Intelligence in Transportation Systems; AmlA - Ambient Intelligence and Affective Environments; GAI - General AI; IROBOT - Intelligent Robotics; KDBI - Knowledge Discovery and Business Intelligence; KRR - Knowledge Representation and Reasoning; MASTA - Multi-Agent Systems: Theory and Applications; TeMA - Text Mining and Applications. Git is the version control system developed by Linus Torvalds for Linux kernel development. It took the open source world by storm since its inception in 2005, and is used by small development shops and giants like Google, Red Hat, and IBM, and of course many open source projects. A book

by Git experts to turn you into a Git expert Introduces the world of distributed version control Shows how to build a Git development workflow The book is a collection of best selected research papers presented at the International Conference on Intelligent Systems and Sustainable Computing (ICISSC 2021), held in School of Engineering, Malla Reddy University, Hyderabad, India, during 2425 September 2021. The book covers recent research in intelligent systems, intelligent business systems, soft computing, swarm intelligence, artificial intelligence and neural networks, data mining & data warehousing, cloud computing, distributed computing, big data analytics, Internet of Things (IoT), machine learning, speech processing, sustainable high-performance systems, VLSI and embedded systems, image and video processing, and signal processing and communication. The three volume proceedings LNAI 11051 - 11053 constitutes the refereed proceedings of the European Conference on Machine Learning and Knowledge Discovery in Databases, ECML PKDD 2018, held in Dublin, Ireland, in September 2018. The total of 131 regular papers presented in part I and part II was carefully reviewed and selected from 535 submissions; there are 52 papers in the applied data science, nectar and demo track. The contributions were organized in topical sections named as follows: Part I: adversarial learning; anomaly and outlier detection; applications; classification; clustering and unsupervised learning; deep learning ensemble methods; and evaluation. Part II: graphs; kernel methods; learning paradigms; matrix and tensor analysis; online and active learning; pattern and sequence mining; probabilistic models and statistical methods; recommender systems; and transfer learning. Part III: ADS data science applications; ADS e-commerce; ADS engineering and design; ADS financial and security; ADS health; ADS sensing and positioning; nectar track; and demo track. Transform your accounting course with FUNDAMENTALS OF ACCOUNTING 10E, the leader in accounting education for more than 100 years. Input from educators, accounting professionals, content experts, and accounting students has informed the tenth edition's new critical-thinking activities, real-world applications, updated Accounting instruction, and enhanced online learning solutions, including Online Working Papers and Automated Accounting Online computerized accounting software. FUNDAMENTALS OF ACCOUNTING 10E maintains its renowned instructional design and step-by-step approach to teaching the mechanics of accounting. Greater emphasis on conceptual understanding and financial statement analysis in the tenth edition encourages students to apply accounting concepts to real-world situations and make informed business decisions. New features like Forensic Accounting, Think Like an Accountant, Financial Literacy, and Why Accounting? are a few examples of the expanded opportunities for students to master valued skills, such as critical thinking and technology use, as defined by the Partnership for 21st Century Skills. In addition, commercial technology, integrated throughout the text, equips students to work with Microsoft Excel, Peachtree, QuickBooks, and Automated Accounting Online, with step-by-step instructions and the flexibility to use multiple versions of software. Trust the dedicated leader in accounting education to transform your accounting course with a time-tested instructional design, enhanced digital solutions, and a comprehensive package to address your contemporary classroom needs and prepare your students for success in the 21st century. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. War between heaven and hell is coming, but Dante Walker makes it look damn good. Dante's girlfriend, Charlie, is fated to save the world. And Aspen, the girl who feels like a sister, is an ordained soldier. In order to help both fulfill their destiny and win the war, Dante must complete liberator training at the Hive, rescue Aspen from hell, and uncover a message hidden on an ancient scroll. Dante is built for battle, but even he can't handle the nightmares where spiders crawl from Aspen's eyes, or the look on Charlie's face that foretells of devastation. To make matters worse, the enemy seizes every opportunity to break inside the Hive and cripple the liberators. But the day of reckoning is fast approaching, and to stand victorious, Dante will have to embrace something inside himself he never has before—faith. The Dante

**Walker series is best enjoyed in order. Reading Order: Book #1 The Collector Book #2
The Liberator Book #3 The Warrior**
