As the Allies counter the Nazi assault and set off for the coast of France, Japan begins to buckle, soon every battle will be played out in a lethal dance of might and intelligence, unholy alliances and desperate gambles, and each clash will be fought with the ultimate weapon; knowledge from the future. Thanks to the historical records, all sides know that two superpowers will emerge while the losers will be pounded into submission. But time has shifted on its axis, so none know who will survive or how peace will take hold in a world turned upside down. Summer is a passionate campervanner who also loves good food and she now blogs and writes books about the easy, home-style recipes that she creates for the campervan life. Summer and her partner, Glyn, had been camping for many years but got fed up with putting up a tent in the half-light on a Friday night or taking it down in the rain at the end of a wet weekend so decided to buy themselves a small campervan. They went to the campervan shows but realised that their very small

budget would buy them barely more than a wheel there! But then they found a company that sold converted Toyota Previas for a reasonable price and their new campervan, 'Trev-the-Prev' came in to their life. Summer had Chronic Fatigue Syndrome for many years but healed herself by researching, like a maniac, everything to do with mind-body health. She realised that nutritious food is very important to staying well and happy but found that it was not so easy to cook good food in the limited kitchen that you get in a small campervan. So she started to search for and develop easy real-food recipes that they could cook when they were out having adventures. She loves to share her recipes so she started up a blog (www.thecampercookie.com) and also writes recipe books for campervan cooking. She also demonstrates her recipes on YouTube and at shows. The report suggests that the price paid for mobility is too high especially because proven measures exist. Drastic action is needed to put these measures in place to meet any future global target that might be set and save lives. Four case studies from ex-Soviet Union, Asia and Africa illustrate how development projects put their claim into practice.
