Companies face the challenge of measuring and analyzing the near-overwhelming quantities of data generated from their online businesses and then using that data to gain critical insights into their customers to drive sales. Adobe Analytics (formerly SiteCatalyst) provides product and content managers, marketers, and analysts with real-time intelligence on customers' online behavior, helps businesses anticipate what their customers will want, personalizes their online experience, and delivers relevant content across web and mobile channels. This quick lookup guide by Adobe Analytics expert Shane Closser uses clear, concise explanations and an easy-to-use format to jump in and start using Adobe's powerful web analytics tool. You'll learn the quickest way to: Create metrics Run and set options for reports Measure the effectiveness of marketing campaigns Engage and retain customers Track customers through the conversion funnel Share reports and set up dashboards Explains the process by which the US government selects architect-engineering firms to perform design services for it, and guides the prospective contractor through the maze of requirements from finding the announcement of available contracts, almost (but not quite) to the Senate subcommittee hearings on graft. Covers how to go after a job, the proposals and negotiations leading to getting it, the administration and recording requirements

after the contract is awarded, and the requirements when the project is completed. Updated to the 1995 versions of the regulations.
