Climate Law in Australia Aug 24 2022 Climate Law in Australia provides the first extended account of

Australia's new climate law. It examines key federal and state legislation and the main cases brought before Australian courts. It combines incisive legal analysis with a deep understanding of climate-related issues and policy. The authors include leading academics such as Professors Robyn Eckersley, David Farrier, Rob Fowler and Jan McDonald, and leading practitioners such as Charles Berger, Kirsty Ruddock, Chris McGrath, Allison Warburton and Martijn Wilder. The editors are Professor Tim Bonyhady, Director of the Australian Centre for Environmental Law at the Australian National University, and Dr Peter Christoff of the University of Melbourne and Vice President of the Australian Conservation Foundation. The book examines pivotal issues in Australian climate law and policy - the Kyoto Protocol and its alternatives, emissions targets, carbon trading, geosequestration, nuclear decision-making, adaptation to climate change and legal liability. It contains detailed analysis of the leading cases involving the Hazelwood power station, the Anvil Hill, Xstrata and Bowen Basin coal mines, and the Bald Hills and Taralga wind farms. Climate Law in Australia explores both the need for conventional legal regulation and the potential of economic responses to climate change. It shows how climate law has grown in Australia - and how far the law still has to go.

Central Park Jun 10 2021 From the #1 international bestselling author: a woman wakes up on a Central Park bench with no memory of how she got there in this “unpredictable and moving psychological thriller that keeps you holding your breath” (Métro) Alice, a fierce and respected Parisian cop, wakes up on a Central Park bench with no memory of the night before, handcuffed to a complete stranger—a musician named Gabriel. Disoriented, dazed, and with someone else’s blood on her shirt, Alice works furiously to reconnect the dots. She remembers clubbing with her friends the night before on the Champs-Élysées. Gabriel claims he was playing a gig in Dublin. Was she drugged? Kidnapped? Why is the gun in her jacket pocket missing a bullet? And whose blood is on her clothes? Over the next twenty-four hours, Alice and Gabriel race across New York in search of answers, stumbling upon a startling set of clues that point to a terrible adversary from the past. Alice must finally confront her memories of hunting the serial killer who took everything from her—a man she thought was dead, until now. From France’s #1 bestselling author, Central Park is a taut and suspenseful thriller that will keep readers riveted until its final shocking twist.

Adventures of Richard Wagner Oct 02 2020 At the age of four, Wilhelm Richard Wagner made his first

impression on the theatrical world when he pounded on a bass drum and stopped the performance at the Dresden Playhouse-right in the midst of his stepfather's lines. This ill-fated incident put a temporary stop to Richard's nights backstage, and the punishment was almost more than exuberant little "Dicker" could bear. No more trunks to explore, no more wigs to try on, no more lights and music and dancing. He had so loved being a part of his adored stepfather's professional life. But there were golden and impressionable years ahead for young Richard. He came under the haunting spell of Weber's opera, Der Freischutz, and copied the entire score on his own music sheets to memorize. He avidly read Shakespeare's plays and vowed he would write even greater tragedies. He staged puppet shows, wrote poetry, and dreamed fantastic dreams. One of the most profound influences on Richard's youth was a Beethoven symphony, heard for the first time in Leipzig. The mighty music thundered in his mind as he walked from the concert hall, and it was characteristic of him that he determined, then and there, to become a great composer. Always headstrong and impatient with guidance from others, Richard struggled daily with the rules of harmony and counterpoint, while his instructors discouraged his dream. Throwing traditional methods aside, the future composer of Lohengrin and Tristan and Isolde went directly to the great masters' works and copied their music, note by

note, until it became a part of him. More than anything else he wanted to write operas-his own stories set to music, sung and acted. As Opal Wheeler's light-hearted and lively biography reveals, Richard Wagner is an amazing example in music history-one of the few composers of stature who learned his art from the untutored study of the masterpieces of his day.

Handel: At the Court of Kings Apr 08 2021 With clarity and with admirable simplicity, keyed to the understanding of children, Opal Wheeler has traced the many-sided career of George Frederic Handel, whose restless nature vied always with his tremendous ability as a composer and director. Handel's strange boyhood, clouded by the fact that his father did not want him to become a musician, and the later years when, thanks to the patronage of the Duke of Saxe-Weissenfels, his music was played before the greatest music lovers of Europe ? all this makes absorbing reading. The

selections of Handel's music included here are those best understood and most apt to be mastered by young musicians. One evening, back in 1691, conservative Doctor Handel was shocked and dismayed to find his small son carrying the torch at the head of a band of singers wandering through the little town of Halle. The good doctor never quite understood the all-consuming love of music which drove his son from childhood on and on to the great heights he eventually attained as the beloved Father of the Oratorio, the composer of the magnificent MESSIAH. Opal Wheeler has given us here the most finished, most completely satisfying book on her list of fine music biographies. Handel at the Court of Kings should be a favorite of all children who love music, whether they are young musicians themselves or not.

Cloudbound Oct 22 2019 After the dust settles, the City

of living bones begins to die, and more trouble brews beneath the clouds in the companion to Updraft. "A thrilling and complex tale about the most difficult stage of a revolution: what do you do after you win? Highly recommended both for the story it tells as well as how it tells that story. Wilde takes risks that pay off hugely."

—Ken Liu, Hugo and Nebula Award-winning author of The Grace of Kings

The Towers in disarray, without a governing body or any defense against the dangers lurking in the clouds, and daily life is full of terror and strife. Nat Densira, the wing-brother to Kirit (Skyshower, Spirebreaker, no-longer-of-Densira) sets out to be a hero in his own way—sitting on the new Council to cast votes protecting Tower-born, and exploring lower tiers to find more materials to repair the struggling City. But what he finds down-tier is more secrets—and now Nat will have to decide who to trust, and how to trust himself without losing those he holds most dear, before a dangerous myth raises a surprisingly realistic threat to the crippled City, in Cloudbound. "I long to know more about the world and where Wilde's imagination will soar next. In the meantime it's all I can do to slow-clap this powerfully engaging debut: Wilde's world and characters—as is entirely appropriate—blew me away."

Digital Media, Youth, and Credibility Sep 01 2020 The difficulties in determining the quality of information on

the Internet--in particular, the implications of wide access and questionable credibility for youth and learning. Today we have access to an almost inconceivably vast amount of information, from sources that are increasingly portable, accessible, and interactive. The Internet and the explosion of digital media content have made more information available from more sources to more people than at any other time in human history. This brings an infinite number of opportunities for learning, social connection, and entertainment. But at the same time, the origin of information, its quality, and its veracity are often difficult to assess. This volume addresses the issue of credibility--the objective and subjective components that make information believable--in the contemporary media environment. The contributors look particularly at youth audiences and experiences, considering the implications of wide access and the questionable credibility of information for youth and learning. They discuss such topics as the credibility of health information online, how to teach credibility assessment, and public policy solutions. Much research has been done on credibility and new media, but little of it focuses on users younger than college students. Digital Media, Youth, and Credibility fills this gap in the literature. Contributors Matthew S. Eastin, Gunther Eysenbach, Brian Hilligoss, Frances Jacobson Harris, R. David Lankes, Soo Young Rieh, S. Shyam Sundar, Fred W. Weingarten
