Charlemagne and Louis the Pious Dec 25 2019 "Translations of ninth-century lives of the emperors Charlemagne (by Einhard and Notker) and his son Louis the Pious (by Ermoldus, Thegan, and the Astronomer). Presented chronologically and contextually, with commentary"--Provided by publisher.

The Legend of Charlemagne in the Middle Ages Feb 07 2021
These essays take advantage of a new, exciting trend towards interdisciplinary research on the Charlemagne legend. Written by historians, art historians, and literary scholars, these essays focus on the multifaceted ways the Charlemagne legend functioned in the Middle Ages and how central the shared (if nonetheless fictional) memory of the great Frankish ruler was to the medieval West. A gateway to new research on memory, crusading, apocalyptic expectation, Carolingian historiography, and medieval kingship, the contributors demonstrate the fuzzy line separating "fact" and "fiction" in the Middle Ages.

The Holy Roman Empire: A Very Short Introduction Jan 18 2022

Voltaire's description of the Holy Roman Empire as 'neither holy, nor Roman, nor an empire' is often cited to underline its worthlessness. German historians traditionally despised it because it had allegedly impeded German unification. Since 1945 scholars have been more positive but the empire's history and significance is still largely misunderstood. In this Very Short Introduction Joachim Whaley outlines the fascinating thousand-year history of the Holy Roman Empire. Founded in 800 on the basis of Charlemagne's Frankish kingdom, its imperial title went to the German monarchy which became established in the ninth and ten centuries. They claimed Charlemagne's legacy, including his role as protector of the papacy and guardian of the Church. Around 1500 the title Holy Roman Empire of the German Nation was adopted. An elective monarchy, the empire gradually developed from a feudal monarchy into a legal system that pacified the territories and cities of German-speaking Europe. By 1519 it had a supreme court and a regional enforcement system ended feuding. Throughout its lifetime, the empire's growth and history was shaped by the major developments in Europe, from the Reformation, to the Thirty Years War, to the French revolutionary wars, which led to Napoleon destroying the empire in 1806. The sense of a common history over a thousand years and the legal traditions established by the empire have shaped the history of German-speaking Europe ever since. Joachim Whaley analyses the empire's crucial impact and role in the history of European power and politics, and shows that there has never been a more durable political system in German history. ABOUT THE SERIES:

The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Manuscripts and Libraries in the Age of Charlemagne Oct 15 2021
Bernhard Bischoff (1906-1991) was one of the most renowned scholars of medieval palaeography of the twentieth century. His most outstanding contribution to learning was in the field of Carolingian studies, where his work is based on the catalogue of all extant ninth-century manuscripts and fragments. In this book, Michael Gorman has selected and translated seven of his classic essays on aspects of eighth- and ninth-century culture. They include an investigation of the manuscript evidence and the role of books in the transmission of culture from the sixth to the ninth century, and studies of the court libraries of Charlemagne and Louis the Pious. Bischoff also explores centres of learning outside the court in terms of the writing centres and the libraries associated with major monastic and cathedral schools respectively. This rich collection provides a full, coherent study of Carolingian culture from a number of different yet interdependent aspects, providing insights for scholars and students alike.

United States Army in World War II. Nov 23 2019

Charlemagne Jun 11 2021 An incisive and absorbing biography of the legendary emperor who bridged ancient and modern Europe and singlehandedly altered the course of Western history. Charlemagne was an extraordinary figure: an ingenious military strategist, a wise but ruthless leader, a cunning politician, and a devout believer who ensured the survival of Christianity in the

West. He also believed himself above the rules of the church, siring bastards across Europe and coldly ordering the execution of 4,500 prisoners. Derek Wilson shows how this complicated, fascinating man married the military might of his army to the spiritual force of the Church in Rome, thereby forging Western Christendom. This is a remarkable portrait of Charlemagne and of the intricate political, religious, and cultural world he dominated.

The Carolingian World Mar 08 2021 A comprehensive and accessible survey of the great Carolingian empire, which dominated western Europe in the eighth and ninth centuries.

Official Gazette of the United States Patent Office Apr 09 2021

The Statutes at Large of the United States Jul 12 2021 Statutes at Large is the official annual compilation of public and private laws printed by the GPO. Laws are arranged by order of passage.

Charlemagne Jun 30 2020 When the legendary Frankish king and emperor Charlemagne died in 814 he left behind a dominion and a legacy unlike anything seen in Western Europe since the fall of Rome. Johannes Fried paints a compelling portrait of a devout ruler, a violent time, and a unified kingdom that deepens our understanding of the man often called the father of Europe.

Inquiry Into Occupation and Administration of Haiti and Santo Domingo Jan 26 2020

Charlemagne's Early Campaigns (768-777) Dec 17 2021

Charlemagne's Early Campaigns is the first book-length study of Charlemagne at war. The neglect of this subject has truncated our understanding of the Carolingian empire and the military success of its leader, a true equal of Frederick the Great and Napoleon.

The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces Sep 21 2019

Charlemagne's Mustache Aug 13 2021 Charlemagne's Mustache presents the reader with seven engaging studies, 'thick descriptions', of cultural life and thought in the Carolingian world. The author begins by asking questions. Why did Charlemagne have a mustache and why did hair matter? Why did the king own peacocks and other exotic animals? Why was he writing in bed and could he write at all? How did medieval kings become stars? How were secrets kept and conveyed in the early Middle Ages? And why did early medieval peoples believe in storm and hailmakers? The answers, he found, are often surprising.

Regulations Governing the Admission of Candidates Into the United States Naval Academy as Midshipmen and Sample Examination Papers Apr 28 2020

King and Emperor Jun 23 2022 Charles I, often known as Charlemagne, is one of the most extraordinary figures ever to rule an empire. Driven by unremitting physical energy and intellectual curiosity, he was a man of many parts, a warlord and conqueror, a judge who promised "for each their law and justice," a defender of the Latin Church, a man of flesh and blood. In the twelve centuries since his death, warfare, accident, vermin, and the elements have destroyed much of the writing on his rule, but a remarkable amount has survived. Janet Nelson's wonderful new book brings together everything we know about Charles I, sifting through the available evidence, literary and material, to paint a vivid portrait of the man and his motives. Building on Nelson's own extraordinary knowledge, this biography is a sort of detective story, prying into and interpreting fascinating and often obdurate scraps of evidence, from prayer books to skeletons, gossip to artwork. Charles's legacy lies in his deeds and their continuing resonance, as he shaped counties, countries, and continents; founded and rebuilt towns and monasteries; and consciously set himself up not just as

King of the Franks, but as the head of the renewed Roman Empire. His successors—even to the present day—have struggled to interpret, misinterpret, copy, or subvert his legacy. Janet Nelson gets us as close as we can hope to come to the real figure of Charles the man as he was understood in his own time.

Road Atlas: United States, Canada, and Mexico Dec 05 2020

Hitler's Gauls Sep 14 2021 Hitler's Gauls, the first in the Hitler's Legions series on foreign volunteers and their units, is an in-depth examination of one of the least well-known of these divisions, the Charlemagne, recruited entirely from conquered France. Founded late on in the war in the autumn of 1944, the Charlemagne fought hard on the Eastern Front, often motivated by an extreme anti-communist zeal. Hitler's Gauls explores the background to the unit's formation, the men it recruited, the key figures involved in the division, and its organization. It also looks at the formation and training of the Waffen-SS in general and the Charlemagne in particular, and also the uniforms and insignia that members of the Charlemagne division wore. Hitler's Gauls also provides a full combat record of the division during its existence. The book describes the unit's service on the Eastern Front including battles of near annihilation in the snows of Pomerania and the final stand in the ruins of Berlin. Illustrated with rare photographs, and featuring an authoritative text, Hitler's Gauls is a definitive history of one of Hitler's lesser known foreign units of World War II.

History of European Morals, from Augustus to Charlemagne; Feb 25 2020 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our

most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Arrowsmith Vol. 1: So Smart In Their Fine Uniforms Feb 19 2022
The return of a classic! An oversized, fully remastered collection of the fantasy-adventure epic to accompany the all-new series. Young Fletcher Arrowsmith learns the true cost of war in an alternate history where dragons and magic spells are as much a part of World War I as bullets and barbed wire. This edition, in hardcover for the first time, will present the art as PACHECO originally intended. Collects ARROWSMITH, VOL. 1 #1-6 TRIM SIZE: 7.4" x 11.1"

Charlemagne and the United States of Europe Sep 26 2022
The United States Military in Latin America May 30 2020 Since the introduction of the Monroe Doctrine in 1823, in which the United States vowed to prevent further European interference in the Western Hemisphere, the American military ever increasingly involved itself in the internal affairs of its Latin American neighbors. This book considers nearly 150 years of U.S. military intervention in Latin America, from naval patrols near turbulent Spanish colonies in the early 1800s, to the protection of U.S. interests during Caribbean rebellions at the beginning of the 1900s, to later actions in Panama, Honduras, Cuba and Nicaragua. With short

chronicles of U.S. involvement country by country--from Argentina to Uruguay--and appendices providing biographies of major military commanders, and lists of servicemen decorated, injured or killed during various campaigns, this work highlights the complicated history between the United States and its neighbors to the South.

Public Papers of the Presidents of the United States, William J. Clinton Nov 04 2020

The Life and Times of Charlemagne Jan 06 2021 Charles the Great, or Charlemagne, was one of the world's greatest military leaders. He became the leader of the Franks (who lived in modern-day France) in 768. Under his command, Frankish armies conquered most of Western Europe in the following decades. In 800, he was crowned emperor by Pope Leo XII. His greatness rested on more than military prowess. He was always interested in education, both for himself and for his subjects. He assembled many of the most noted scholars in Europe at his capital in Aachen, Germany, and began the Carolingian Renaissance. This was a period of heightened learning, innovations in architecture, and the preservation of many priceless books from earlier centuries.

After Charlemagne Nov 28 2022 Offers new perspectives on the fascinating but neglected history of ninth-century Italy and the impact of Carolingian culture.
